

# This Year, Our Colleges and Universities Need Your Vote More Than Ever!

As college and university faculty, we must make our voices heard on important education issues:

- Recruiting and retaining faculty talent – low and stagnant salaries along with cuts in pension funding has worsened Florida's brain drain.
- Restoring the funding cuts and reducing student/faculty ratios - We've endured some of the state's steepest cuts and we need to keep up with demand and fund actual enrollment.
- Grant state colleges and universities the authority to adopt policies that promote academic freedom, protect due process and preserve our ability to affect local institutional control.

Vote by mail and make sure your vote is counted.

**It's simple to request your vote by mail ballot!**
